# Block 1

Weeks 1–4 · 3 sessions a week · circuit style

**When:** 3 sessions a week, with a rest day between (e.g. Mon, Wed, Fri)

**How long:** 15–20 minutes, plus warm-up and cool-down

**Effort:** 6–7 out of 10

## Each session

1. **Warm up, 5 minutes.** Gentle mobility and marching on the spot.
2. **Main workout, 15–20 minutes.** The exercises below, in this order.
3. **Cool down, 5 minutes.** Walk it out and stretch lightly.

## Your workout

> Do the 6 exercises in order. Rest 1 minute after the last one. That's one round. Repeat rounds until your 15–20 minutes are up.

| | | |
|---|---|---|
| 1 | **Bodyweight squat**<br>Sit back like into a chair, chest up, knees tracking over toes. | 12 reps |
| 2 | **Calf raises**<br>Rise high onto your toes, pause, lower slowly. Hold support if needed. | 12 reps |
| 3 | **Single-leg glute bridge**<br>One foot planted, other leg lifted, drive hips up through the heel. | 8 each side |
| 4 | **Push-up**<br>Body in one straight line, lower chest towards the floor, push away. | 10 reps |
| 5 | **Bird dog, knee and elbow touch**<br>Extend opposite arm and leg, then draw elbow and knee together underneath. | 10 reps each side |
| 6 | **Hollow hold**<br>Lower back pressed down, arms and legs reaching long, ribs tucked in. | 20 seconds |

**Rest:** Rest 1 minute after all 6 exercises.

Watch the demo for each exercise before your first session. The link is in your email.

## Walking this block

Twice a week, walk intervals: 30 seconds hard, 30 seconds easy, 8 times (15–20 minutes with a warm-up). Steady walks on other days.

Walking between your sessions makes a real difference to blood sugar, especially a short walk after a meal.

## How hard should it feel?

Rate your effort from 1 (very easy) to 10 (flat out). Aim for **6–7** this block.

| | | | | |
|---|---|---|---|---|
| **1–2**<br>Very easy, could go all day | **3–4**<br>Easy, chatting freely | **5–6**<br>Working, can still talk | **7–8**<br>Hard, short sentences only | **9–10**<br>Very hard to flat out |

Too easy? Slow each rep down or add a round. Too hard? Use the easier option shown in the demo and rest a little longer.

## Tick off your sessions

| | Session 1 | Session 2 | Session 3 | Notes (effort, how you felt) |
|---|---|---|---|---|
| Week 1 | | | | |
| Week 2 | | | | |
| Week 3 | | | | |
| Week 4 | | | | |

**Stay safe.** Stop any exercise that causes sharp pain (normal muscle tiredness is fine). If you take medicine that lowers blood glucose, such as insulin or a sulfonylurea, keep a fast-acting carbohydrate (like jelly beans or juice) nearby while you exercise, and know the signs of a low: shakiness, sweating, dizziness, confusion. If you're unsure whether an exercise is right for you, check with your doctor or nurse first.
